ACTUATOR LM24A

MULTILEAF DAMPER
WITH ACTUATOR

FAST-RUNNING
ACTUATOR

OPEN/CLOSE ACTUATORS

FOR THE OPENING AND CLOSING OF DAMPERS IN AIR CONDITIONING SYSTEMS

Actuators for Type JZ, JZ-AL, JZ-LL, JZ-LL-AL, JZ-HL, JZ-HL-AL multileaf dampers

- Change of the damper blade position for two different operating situations
- Supply voltage 24 V AC/DC or 230 V AC
- Control input signal: 1-wire-control or 2-wire control (3-point)
- Mechanical stops
- Retrofit possible

Optional equipment and accessories

- Fast-running actuators
- Auxiliary switch

Application

Application

- Actuators for opening and closing
- Opening and closing of Type JZ, JZ-AL, JZ-LL, JZ-LL-AL, JZ-HL, JZ-HL-AL multileaf dampers

Description

Parts and characteristics

- Mechanical stops for limiting the damper blade positions
- Actuators with overload protection
- Control input signal: 1-wire-control or 2-wire-control (3-point, open/close)
- Optional auxiliary switch for capturing the end positions
- Release button to allow for manual operation
