

## FOR THE FIRST TIME IN GERMANY

Top-class speakers, relaxed get together and TechZone™ shown live for the first time!

## FRESH AIR PROJECT

### SIMPLY BEAUTIFUL

- Special installation subframes allow for smooth integration with the TechZone™ ceiling system
- Services blend in perfectly with the ceiling design
- Diffuser faces made from high-quality extruded aluminium sections

### UTTERLY FLEXIBLE

- Ceiling integration of single diffusers or continuous runs
- Individually adjustable air control elements to meet individual room requirements
- For constant and variable volume flows

### MOST COMFORTABLE

- Excellent room air quality due to a large volume flow rate range
- Best acoustic properties due to low sound power level
- Very high comfort independent of room usage since high induction leads to a rapid reduction of the temperature difference and airflow velocity
