

The art of handling air

CONTROL SYSTEM EASYLAB - LABCONTROL

DESIGN MANUAL - AIR MANAGEMENT WITH EASYLAB

Everything you need to know in regards to laboratory air management. Whether system overview or design details, the manual is clearly structured and explains all aspects of EASYLAB, including the wide range of applications. The design manual assists you in designing your perfect solution.

APPLICATION-ORIENTED SOLUTIONS FOR LABORATORIES

The art of handling air

Ventilation and air conditioning in laboratories have to meet specific, extremely stringent safety requirements since their purpose is to protect the people working in these labs. TROX provides bespoke solutions that set new standards for research facilities and laboratories all over the world:

- For all types of laboratories, whether chemical, pharmaceutical, biological or medical, for areas with potentially explosive atmospheres (ATEX) and for related areas such as storage rooms for solvents, chemicals or compressed gas cylinders.
- For all safety levels: Biosafety level BSL 1–4.
- With adjustable, flexible solutions, be it a stand-alone system for a small lab or a solution for a large laboratory with many rooms and hence a large number of fume cupboards and workbenches that are connected by a bus system.
