Ideal solutions for beautiful façades

FOR OFFICES, SCHOOLS AND KINDERGARTENS

Horizontal and **vertical** façade ventilation units for installation under sills, or above and to the side of windows

Underfloor units for underfloor installation adjacent to an external wall

Ceiling units for installation into suspended ceilings

Underfloor units, ceiling units and vertical units for installation next to a window are ideal for **rooms with floor to ceiling glazing**.

Save costs throughout the product life cycle

Save on operation due to:

- Low energy requirement for air transport
- Ventilation and air conditioning based on occupancy
- Demand-based room air quality control

Save on construction due to:

- Reduced slab to slab height
- Minimal area requirement for technical equipment
- No ducts or shafts required
- Small unit base, hence only small floor area required

FIND OUT MORE

Would you like to know more about decentralised ventilation? Here's more information, ready for download:

- Façade ventilation systems for new and refurbished offices, schools and children's daycare facilities (brochure)
- Variety at a glance (overview)

The brochure gives you all the background information, while the overview helps you select the unit that best meets your requirements.
