

## PLANNING

### SOLUTIONS FOR EVERY TYPE OF BUILDING

The planning of the building services is a complicated task.

The expectations of the owners are often the same: ecological and economical sustainability with simultaneously high comfort and low investment costs. No two buildings are alike, however - different types of building and their utilisation, new construction, or refurbishment require individual concepts. Find the best air-conditioning and ventilation solution for your property!

Here, you can learn more about the following topics:

## DESIGN MANUALS

### EASY AND INDIVIDUAL PLANNING OF ROOM AIR CONDITIONING SYSTEMS

Our design manuals support you in the individual planning of room air conditioning systems.

With the aid of planning criteria, legal regulations and standards, explanations on the use of individual products, economic feasibility studies, architectural design options and detailed product overviews, you select the components, devices and systems that suit your project.
